Dear Jerry

Re: Working relationship with Signs Now

Kellaway Building Supplies has been using the services of Signs Now since 2003. During that time we have completed rebranding exercises through business acquisition, along with signage for new branches – including fascia signage, large “welcome” boards and directional signs.

In addition to signage for complete branches, Signs Now have been excellent in providing ideas to enhance our existing branches, such as banners, poster sites, window vinyl graphics along with internal shop signage.

Project work has always been carried out to a high standard, and any challenges have always been met.

Yours sincerely

Chris Parker
Sales Development Manager
